<b>Bass</b>	Wedge Monitor  *When Touring, a Bass Cab and Amplifier are usually preferred for backline	Bass Cab Bas Amplifier
<b>Drums</b>	Wedge Monitor  *When Touring, a Drum Kit and seat are preferred for backline.	Drum Kit Drum Seat

**Notes:**

- All vocal microphone stands should be on a boom tripod if possible.
- The above description lists the default configuration of the band, but exact sound needs do vary a bit depending on the venue size and location. Please confirm the exact setup with Anna Lee before the show.
- Shows can also be played as a duo, trio, quartet, or quintet. Marian or Anna Lee will send an adjusted stage plot if the ensemble size is different than the usual sextet.
- The band usually travels with their own instruments. However, having amplifiers and a drum kit as part of the backline is extremely helpful (especially when the band is flying). Marian or Anna Lee will send an inquiry if these are needed at the show.
